# EDUCATION

ORMISTON SENIOR COLLEGE  
January 2024 - Current

NCEA Level 1  
Subjects: Maths, English,  
Accounting, Business  
Studies, Chemistry, Physics  
Electricity, Physics  
Mechanics, Digital  
Technology Programming,  
Industrial Technology, Food  
Technology.

NCEA Level 2  
Mathematics, English,  
Physics, Computer Science,  
Chemistry

# SKILLS

- Project Management
- Teamwork
- Time Management
- Leadership
- Effective  
Communication
- Critical Thinking
- Problem Solving

# AATIESH SRINIVASAN

## PROFILE

## PERSONAL STATEMENT

Motivated Year 12 student with strong leadership, teamwork, and problem-solving skills. Founder and leader of Ormiston Senior College’s first Space Club, Student Leader, and active community volunteer. Experienced in project management, collaboration, and public speaking through diverse roles in school, sport, and service. Passionate about STEM, aerospace, and making a positive impact in the community.

## KEY SKILLS

- Leadership & Extracurricular Activities
  - Student Leader – Ormiston Senior College (2025–Present)
    - Act as a representative voice for over 1,500 students, working with staff and peers to improve school culture.
    - Organise school-wide events, lead assemblies, and inspire school spirit through active engagement.
    - Mentor junior students and promote inclusivity, ensuring all voices are heard.
    - Developed leadership through planning, time management, and decision-making under pressure.
  - Founder & Leader – Space Club, Ormiston Senior College (2025–Present)
    - Founded and built OSC’s first-ever Space Club, growing it into a thriving group of students passionate about space and STEM.
    - Led model rocket projects from design to launch, coordinating roles across engineering, safety, and research.
    - Initiated a research project on space junk analysis, guiding members to identify causes and propose prototype solutions, linking local learning to global challenges.
    - Encouraged creativity and innovation by challenging the team to improve aerodynamics, aesthetics, and design efficiency in rocket builds.
    - Balanced multiple projects with academic commitments by setting detailed timelines and delegating responsibilities effectively.
  - SPECTrum Club – Space Section Leader (2025–Present)
    - Directed the space-focused division of the school’s SPECTrum Club, creating hands-on challenges and learning opportunities.
    - Mentored peers in solving technical and scientific problems, building collaboration and problem-solving skills.
    - Helped strengthen the school’s STEM culture by making space exploration engaging and accessible.
  - Epro8 Competition – Team Leader (2025–Present)
    - Represented OSC in Epro8, New Zealand’s premier inter-school engineering and problem-solving competition.
    - Coordinated a team of four to design, build, and program solutions under strict time limits.
    - Developed leadership by assigning roles, maintaining morale under pressure, and ensuring deadlines were met.
    - Strengthened technical skills in engineering, electronics, and construction while fostering innovation and teamwork.
  - World Vision Youth Conference Representative (2025)
    - Selected to represent OSC at a national leadership event, contributing ideas on climate change, inequality, and youth empowerment.
    - Engaged in workshops with young leaders from across New Zealand, enhancing cultural awareness and public speaking skills.
    - Applied conference learning back at school through projects in sustainability and social awareness.
  - SVA (Student Volunteer Army) Ambassador (2025–Present)
    - Spearhead student volunteering at OSC, promoting environmental clean-ups, fundraisers, and service projects.
    - Inspire peers to take part by leading from the front and showing the impact of small acts of service.
    - Develop project management by organising events, tracking participation, and ensuring projects create visible community benefits.
  - Air Cadet – NZCF (2024–Present)
    - Gained leadership and discipline through NZDF-inspired training and drill practices.
    - Honoured to serve as Flag Bearer for ANZAC Day, Vietnam Veterans Day, and the Battle of Britain commemorations.
    - Built teamwork, resilience, and commitment by balancing cadetship alongside school leadership roles.

2023:

Awarded

- Ormiston Junior College - Perseverance and Determination
- Ormiston Junior College - Integrity and Disposition

2024:

- Health and Safety certificate(Achieved NZQA Unit Standard 497)
- Royal New Zealand Plunket babysitting course certificate.

2025:

- Student Leader - House Leader
- Harakeke Award - For Support of learning in several different areas of school life
- Waka Award - For Exceptional Service to the school
- FRTO - Certificate

# EXTRA CURRICULAR ACTIVITIES(CURRENT)

I formed a Space club in our school and also lead a space part in the SPECtrum club. I am a member of the Model UN, Interact Club, OSC Owls, SPECtrum Club, Environment Council, Epro8 and the Yearbook Club.

**Student Leader at OSC:** As a Student Leader, I take pride in being a voice for my peers and helping create a vibrant school community. I organise events, rally school spirit, and work closely with teachers and students to make sure everyone feels included. It's been an amazing opportunity to step up, lead by example, and build my skills in teamwork, planning, and inspiring others. I love motivating my classmates and making our school a better place.

**Represented OSC at the World Vision Youth Conference, 2025:** This year, I had the honour of representing OSC at the World Vision Youth Conference 2025. It was an incredible experience to dive into discussions about global challenges like poverty and climate change alongside other passionate young leaders. I spoke up in workshops, shared my ideas, and learned so much from different perspectives. It pushed me to think bigger, sharpen my public speaking, and feel more connected to issues that matter worldwide.

**SVA Ambassador (Student Volunteer Army):** Being an SVA Ambassador is something I'm proud of. I get to lead and promote volunteering projects that make a real difference in our community, from environmental cleanups to fundraising for local causes. I rally my peers to join in, spread the word about the Student Volunteer Army's mission, and show how fun and rewarding giving back can be. It's taught me how to lead with passion, organise impactful events, and inspire others to care as much as I do.

## **Founder and Leader of the Space Club:**

- Founded and led the Space Club, organising projects such as model rocket building to promote interest in space exploration.
- Coordinated team tasks, delegated roles, and facilitated collaborative learning for club members.
- Led a team project analysing space junk data, identifying sources, developing solutions, and creating a prototype, showcasing problem-solving and analytical skills. SPECtrum Club, Your High School, Space Section Leader 2024-Present
- Led the space-focused section of the SPECtrum Club, designing activities to engage members in STEM-related projects.
- Mentored peers in developing skills for space-related challenges and competitions.

- Member of the **Ormiston Cricket team** since January 2024-to present
- At the start of 2024 I joined the First XI OJC cricket team(OJC's first ever team).
- I played as a wicket keeper and a batsman
  - I took 14 wickets in 9 games and 104 runs.
  - I made crucial wickets which led to the win of our games as undefeated champions

## WORK HISTORY

### Sports

#### Ormiston Cricket First XI (2024-Present)

- Played as wicketkeeper and batsman in OJC's first cricket team.
- Achieved 14 wickets in 9 games and 104 runs, contributing to the team's undefeated championship.

#### Badminton A Team – Ormiston Junior College (2023)

- Secured the Manukau Counties Championship through strong teamwork and strategy.

### Academic Projects & Skills

- Physics Research – Excellence grade project through effective collaboration and clear communication.
- Business Studies Project – Led product design, marketing, finance, and production, managing tasks to meet deadlines.
- Renewable Energy Report – Conducted data analysis and presented sustainable findings.
- STEM Tutoring – Supported classmates in mathematics by simplifying complex concepts.

### Core Skills

- Leadership & Teamwork
- Problem-Solving & Critical Thinking
- Communication & Public Speaking
- Project & Time Management
- Creativity & Innovation

### Volunteering & Service

- Babysitting and homework support for younger students.
- Pest control and moth pod collection for biodiversity protection.
- Fundraising for school and community causes.
- Classroom and campus maintenance.

### Work Experience

#### Distributor – Reach Media (Aug 2021 – Oct 2021)

- Delivered newspapers to 50+ households daily, ensuring timeliness and accuracy.
- Maintained records and managed subscriptions.
- Developed strong reliability, customer service, and work ethic.
